

DC Permanent Magnetic Air Compressor / Art Designing Air Compressor Series

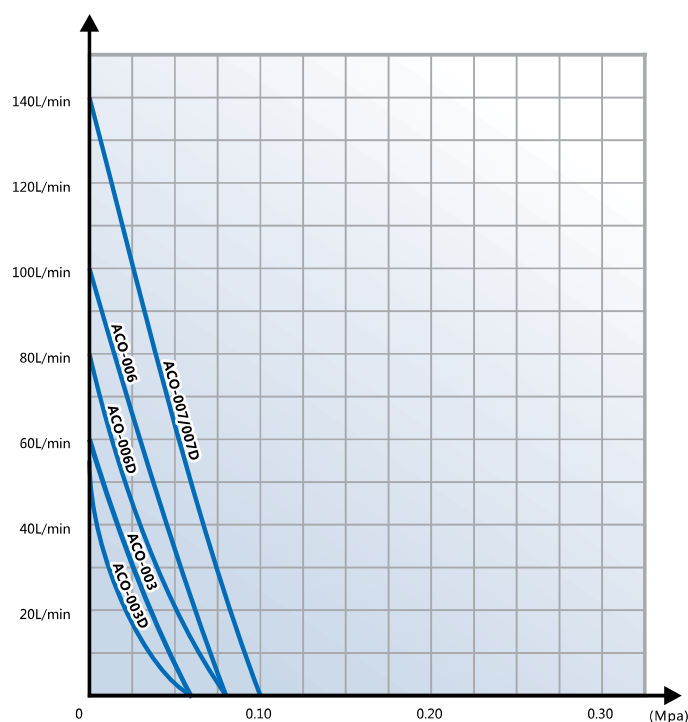

Product description

- Driven by high quality DC permanent-magnetic motor, the piston moves repeatedly in the cylinder up and down & produces air flow that is large in output and high in pressure.
- The unit is dual operation of air compressor and vacuum pump, wide application in industry.

Performance Curve

Specifications

Model	Power	Voltage	Pressure	Output	Weight	Size
ACO-003D	25W	DC 6V	> 0.06Mpa	55L/min	1.5kg	195×91×128mm
ACO-003	25W	DC 12V	> 0.06Mpa	60L/min	1.5kg	
ACO-006D	35W	DC 12V	> 0.08Mpa	80L/min	2.8kg	231×112×156mm
ACO-006	75W	DC 12V	> 0.08Mpa	100L/min	4.0kg	251×124×167mm
ACO-007D	130W	DC 24V	> 0.10Mpa	140L/min	4.2kg	218×138×181mm
ACO-007	130W	DC 12V	> 0.10Mpa	140L/min	4.2kg
